The recent pogroms in Poland carried through by the fascist underground has created a situation which is of deep concern to all Jewish communities the world over.

It is our deep conviction that our government can and should take every necessary step in aiding the democratic government of Poland in its peaceful program of reconstruction and in creating a life of security and freedom for our Jewish brothers in Poland.

Enclosed is a copy of a memorandum to be submitted to the President of the United States. We would deeply appreciate your name on this statement and we would urge you to sign the statement and return same to us not later than August 1st.

Very truly yours,

JEWISH PEOPLES FRATERNAL ORDER, IWO
